

Manulife Floating Rate Senior Loan Fund - (US\$)

Class U · Performance as at February 28, 2019 · Holdings as at January 31, 2019

Investment Highlights

The Manulife Floating Rate Income Fund (denominated in U.S. dollars) is a closed-end investment fund created to preserve capital and to provide the opportunity for increased income if short-term interest rates rise while providing investors with steady monthly distributions. The Fund invests in an actively managed portfolio comprised primarily of investments in Senior Floating Rate Loans and, to a lesser extent, short duration debt securities.

For more information please contact your advisor or visit manulifemutualfunds.ca

¹ Distribution yield is calculated based on prior 12-month rolling average of paid distributions and using average month-end net asset value, per security. The distribution yield excludes any year-end capital gains distributions paid. Distribution yield should not be confused with a fund's performance or rate of return.

² Holdings are subject to change. They are not recommendations to buy or sell any security.

There are ongoing fees and expenses associated with owning units of an investment fund. An investment fund must prepare disclosure documents that contain key information about the fund. You can find more detailed information about the fund in these documents. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated. The rate of return shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the investment fund or returns on investment in the investment fund. Distributions are not guaranteed and may fluctuate and should not be confused with a fund's performance, rate of return, or yield. A Securityholder will generally be required to include in computing income for a taxation year of the Securityholder the amount of the Fund's net income for the taxation year, including net realized taxable capital gains, paid or payable to the Securityholder (whether in cash or in Units or reinvested in additional Units) in the taxation year. Manulife Structured Products are managed by Manulife Asset Management Limited.
