2. Ongoing Fund Expenses

The fund expense ratio (FER) is made up of the management expense ratio (MER) and the trading expense ratio (TER). It includes costs such as management fees,insurance costs, trading expenses and operating expenses for the fund, and if applicable, any underlying fund(s). You don't pay these expenses directly. FERs and guarantee fees affect you because they reduce the return you get on your investment. For details about how the guarantees work, see your Information Folder and Contract.

FER †,*	TER *	MER *	Management fee (%)
2.79	0	2.79	2.50

† The fund is not old enough to report a TER; therefore, the FER is an estimate equal to the MER. The TER will be reported once available.
* Annual rate as a % of the fund value

Trailing commission

Manulife pays a trailing commission of up to 1.00% of the value of your investments each year for as long as you own the fund. It is for the services and advice your advisor provides to you. The trailing commission is paid out of the management fee. You don't pay these expenses directly. The rate depends on the sales charge option you choose.

3. Other Fees

Trading Fees are paid to Manulife.

Fee	What you pay
Frequent Trading Fee	2% of the value of units you trade for switches exceeding 5 per year.
Early Withdrawal Fee	2% of the value of units you sell or transfer within 90 days of buying them.
