Constellation Software Inc.	1.92%
<b>Total</b>	<b>23.41%</b>

Total investments: 328

**Investment Segmentation**

**Are there any guarantees?**

This fund is being offered under an insurance contract. It comes with guarantees that may protect your investment if the markets go down. The MER may include a separate insurance fee that is charged for the guarantees. For details, please refer to the Information Folder and Contract.

**Who is this fund for?**

This Fund may be right for people seeking potential for capital growth and some income. They are comfortable with the risks of investing in equities.

**How has the fund performed?**

This section tells you how the fund has performed for a contractholder who has chosen Back-end load. Returns are after the MER has been deducted.

It's important to note that this doesn't tell you how the fund will perform in the future.

Also, your actual return will depend on the guarantee option and sales charge option you choose and on your personal tax situation.

**Average return**

A person who invested \$1,000 in the fund and chose Back-end load 10 years ago has \$1,535.63 on December 31, 2024. This works out to an average of 4.38% per year.

**Year-by-year returns** Any values close to zero may not be visible.

This chart shows how the fund has performed in each of the past 10 years for a contractholder who chose the Back-end load. In the last 10 years the fund was up in value 7 years and down in value 3 years.

For illustration purposes only. Actual segregated fund performance could be expected to vary and will depend on the guarantee option you choose.

**How risky is it?**

The value of your investments can go down. Please see the Information Folder for further details.

## How much does it cost?

The following tables show the fees and expenses you could pay to invest in or sell units of the fund, and will depend on the guarantee option and sales charge option you choose.

### 1. Sales Charges

Sales charge option	What you pay	How it works	
Deferred Sales Charge (DSC) *	<b>If you sell within:</b>	<ul style="list-style-type: none"> <li>The sales charge is deducted from the amount you sell</li> <li>You can sell up to 10% (20% for RRIF tax types) of your units each year without paying a sales charge</li> <li>You can switch to units of other funds within the same guarantee option and sales charge option without paying any sales charge. The sales charge schedule will be based on the date you invest in your first fund</li> <li>Any sales charge you pay goes to Manulife</li> </ul>	
	1 year of buying		6.00
	2 years of buying		5.00
	3 years of buying		4.00
	4 years of buying		3.00
	5 years of buying		2.00
	6 years of buying		0.00
	7 years of buying		0.00
After 7 years	0.00		

\* **Deferred** sales charge options no longer allow new deposits, subsequent deposits, new or existing PACs or switches in from other sales charge options. Switches within the same sales charge option are permitted. Existing investments in these sales charge options will remain invested and the existing sales charge schedule will apply to any withdrawals.

### 2. Ongoing Fund Expenses

The management expense ratio (MER) includes the management fee and operating expenses of the fund and, if applicable, any underlying fund(s). The MER includes the insurance cost for the guarantee. You don't pay these expenses directly. MERs and guarantee fees affect you because they reduce the return you get on your investment. For details about how the guarantees work, see your Information Folder and Contract.

Guarantee option	MER (Annual rate as a % of the fund value)	Management fee (%)
Back-end load	2.64	2.40
No-load	2.85	2.55
No-load with Reset	2.82	2.55
Platinum No-load	2.11	1.95

#### Trailing commission

Manulife pays a trailing commission of up to 0.50% of the value of your investments each year for as long as you own the fund. It is for the services and advice your advisor provides to you. The trailing commission is paid out of the management fee. You don't pay these expenses directly. The rate depends on the sales charge option you choose.

### 3. Other Fees

Trading Fees apply to all guarantee options and sales charge options and are paid to Manulife.

Fee	What you pay
<b>Short Term Trading Fee</b>	2% of the value of the transaction amount if you sell or transfer within 90 days, in addition to any applicable charges.

## What if I change my mind?

You can change your mind about your investment in a fund within two business days of the earlier of the date you received confirmation or five business days after it is mailed. You can also change your mind about subsequent transactions you make under the contract within two business days of the earlier of the date you received confirmation or five business days after it is mailed. In this case, the right to cancel only applies to the new transaction.

You have to tell us in writing that you want to cancel. The amount returned will be the lesser of the amount you invested, or the value of the fund if it has gone down. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

## Objective and Strategy

**Objective:** The investment objective of the Ideal Fundamental Income Fund is to provide capital appreciation while accommodating the needs of investors who are drawing upon their assets for income purposes. To achieve its objective, the Fund invests primarily in a diversified portfolio of Canadian and foreign equities and/or equity-type securities and fixed income securities either directly or through one or more underlying funds.

**Strategy:** For the equity portion of the Fund, the Portfolio Managers utilize a fundamental, bottom-up investment approach to select securities. Proprietary analysis is used to construct and analyze the historical economic earnings of a company in order to gain an understanding of the business being studied. Factors such as the magnitude and volatility of a company's earnings, competitive advantages, products and other performance drivers are also considered in selecting securities for the Fund. For the fixed income portion of the Fund, the Portfolio Managers emphasize sector allocation, credit quality and security selection, combined with active yield curve management and risk containment. The strategy for this fund is available through the Investment Policy Statement (IPS).
