

Savings Account

FIXED INTEREST ACCOUNTS

SUL (between June 23, 2001 and April 1, 2011) - as of May 31, 2026

How This Account Works

Similar to a daily interest account at a bank or trust company, this account earns interest daily at the current rate for that account. While Manulife always guarantees the principal and interest payment, the interest rate may change at any time.

Volatility and Risk

This account has the lowest risk, lowest volatility and earns the lowest rate of interest over the long term. Consider this account as a short-term account while you decide on your long-term investment strategy. Once you have determined your investment strategy, you can transfer your funds at any time.

Contract Interest Guarantees

The effective annual interest rate for this account is set at least weekly and is guaranteed to be at least:

- the then current yield on Government of Canada 91-day Treasury bills minus the guaranteed management fee, or
- 0%, whichever is greater.
